

APPENDIX A: VISITOR REQUIREMENTS

The below requirements are as of September 20, 2021. These requirements may be altered or amended, based on changing environmental circumstances, CDC recommendations or at NYFA's discretion to best protect the NYFA community.

- **All visitors must read and sign the Acknowledgement and Waiver of Liability (Appendix IV of NYFA's COVID Safety Plan).**

TESTING/VACCINATIONS

All visitors to the NYFA New York campus must be fully vaccinated against COVID-19 and present official proof of immunization.

- i. People are considered fully vaccinated 14 days after receiving their final required dose of a COVID-19 vaccine approved by the FDA or WHO for emergency use.
- ii. No exception to the above policy will be made for minors, regardless of whether the vaccine is available to people in that age bracket.

MASKS

All visitors (as well as NYFA community members) are required to wear well-fitted, multi-layered, quality masks, at all times while on the NYFA campus. Coverings such as bandanas and "gaiter masks" or other facial coverings not of comparable quality will not be permitted. Vaccinated presenters may, temporarily, remove masks during presentation only.
